-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-32 have been considered but are moot in view of the new ground(s) of rejection.

Terminal Disclaimer

2. The terminal disclaimer filed on March 27th, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of application No 10/716050 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Montgomery et al (U.S. PG Pub No. 2003/0101143).

5. As per claim 1, 17, Montgomery et al disclose secure indicia printing system and method for generating and printing an indicium on an object, said object having other material printed thereon, comprising a printer for printing said indicium a processor for receiving a digital image

Art Unit: 3621

of said other printed material, and for processing said image to abstract characterizing information descriptive of aspects of said image from said image, said aspects being selected from the group consisting of, lengths of elements of said image, numbers of outliers in said image, and shapes of said image or of elements of said image, said characterizing information being selected to fit within said indicium a meter, said meter communicating with said processor to receive said characterizing information, and having a communications link for receiving other information from another information source, and communicating with said printer, for cryptographically authenticating said characterizing information and other information generating said indicium to be representative of said cryptographically authenticated information; and controlling said printer to print said indicium on said object; and said object's relationship to said indicium can be verified by regenerating said characterizing information from said other printed material and comparing said regenerated characterizing information with characterizing information recovered from said indicium, and copies of said indicium cannot easily be used without detection on other objects which do not include said other printed material. (*see abstract, figs 2, 3, 4, 5, 8, 19-22, pps 0006, 0034-0038, 0113-0114, 0116, 0134-0138*).

6. As per claims 2-16 and 18-32 they are dependent on claims 1 and 17 and do not further limit the scope of the invention. Their limitations are clearly taught/disclosed by Montgomery et al. Therefore they are rejected by the same rationale.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (*see form 892*).
